

Prediction of real estate property prices in Montreal

Nissan Pow

Emil Janulewicz

L. Dave Liu

Prediction Questions

1. Predict the selling price of properties

Motivations: Suggest accurate

- Selling prices for the sellers
- Buying prices for the buyers

1. Predict the Montreal borough that the property is most likely to belong to

Motivation: Suggest buying locations for buyers depending on their circumstances

Data sets

1. Property listings in Montreal from real estate website

- The targets: Prices
- The features: Location, Size, Property type, etc.

Additional demographics from Statistics Canada

- Income, Population age, Household size, etc.

2. Bounding polygons from Montreal Open Data

- The labels: Montreal boroughs

Machine learning methods

1. **Regression** of the prices

Linear and logistic regressions

k-Nearest Neighbours

2. **Classification** of the boroughs

Supervised:

Logistic regressions

k-Nearest Neighbours

SVM

Neural Networks

Un-supervised:

k-Means

Preliminary Results

Account for variance in Price

Future directions

Incorporate data from Statistics Canada based on the defined Montreal boroughs
